

volume 22 • no. 1 • 1st quarter, 2010

To Our Stockholders, Valued Clients and Friends:

As we celebrate our 20th anniversary this year, it's a good time to look ahead to the future but also to reflect on where we have been. In the past twenty years, there have been numerous significant events. Although there have been wars and strife, there have been positive moments as well. The invention of the internet has linked almost every person, in every corner, of the world. Our communal conscience was strengthened by the release of Nelson Mandela and the reunification of East and West Germany. And, we've seen deeper into space than ever before with the launch of the Hubble space telescope.

Through it all, we've not only lasted, but have thrived. And now, as we celebrate our 20th anniversary, Bank of the West has grown to become El Paso's largest locally owned and operated community bank with over \$856 million in assets.

As proud as we are about where we are today, we're equally proud of our history and tradition. Our roots go back to 1990, when a group of visionary leaders came together, committed to insuring El Paso had a strong, locally owned financial institution. We had our share of skeptics; those who said El Paso didn't need "just another" bank.

Frankly, we couldn't agree more. That's why we founded our bank on community-minded values and a strong emphasis on customer service. As we grew, we remained committed to helping our neighbors expand their businesses, buy new homes, send their children to college, and even invest in a secure retirement.

We welcome you to experience what makes Bank of the West more than "just" a bank. Since we're locally-owned, we're able to make quick, local decisions and have the pleasure of getting to know you, our customer. And, in getting to know you and your needs, we continue to create products and services offering you convenience and value such as monthly E-Statements and online account access with NetBanking.

But, the true secret to why we're more than "just" a bank is our relationship with our community. At Bank of the

West, we're your friends and your neighbors, so it makes sense we want the best for El Paso. It drives us to be actively involved in numerous local civic organizations, non-profit agencies, and community betterment efforts. Be it as a member of the Board of Directors, as a volunteer, or through financial contributions; we all share the commitment to serve. It's a part of who we are not only as a bank, but as a family.

In celebrating this 20-year milestone, we would like to invite you to join us in honoring our most important asset, you. It's our way of saying thank you for believing in us as much as we believed in you. Please drop by on May 26th or 27th to share in our festivities, meet members of our senior management team, and enjoy various refreshments. We hope to see you there!

In closing, our past has shown us Bank of the West is more than just the sum of products and services. Our success and longevity have been made possible through the commitment and support of our Board of Directors, dedicated employees and loyal customers. We truly appreciate the trust you've placed in us, and look forward to the next twenty years of serving you. On behalf of everyone at Bank of the West, thank you.

Sincerely,

To Our Stockholders, Valued Clients and Friends:

It's truly a great time to be a community bank. As daily news of the financial industry continues to be dismal, community banks, and Bank of the West especially, remain solid. Equally important, people are looking for a personal relationship with a financial institution rooted in traditional values. At Bank of the West, we're proud to offer all of these things: the safety, security and personal attention you deserve, along with all the products and services you need.

We are committed to continually evaluating our products and services to ensure we're meeting the evolving needs of our customers. On the heels of last year's exciting and profitable period of growth, we're proud to soon unveil our completely redesigned online banking service. Designed with our customers in mind, our updated Netbanking system will feature a refreshed look, convenient access to online Bill Pay and electronic statements, and new tools and resources.

MyMoney Center, a new personal finance management component to our Netbanking, will provide better information to our customers about their financial standing and guide them towards better financial decisions. MyMoney Center's "smart" dashboard keeps you in control of your finances by providing an up-to-date snapshot of your financial life with a detailed overview of all your linked accounts. Users can also track their balances and activity for checking, savings, credit cards, loans, investments and even reward balances in one convenient location. Additionally, you can view your net worth, categorize your spending into customizable categories, create budget goals, and set automated alerts notifying you of bill payments, large credit card charges and low bank balances. This service upgrade and new finance tool are just the first of many successful new endeavors in store for our customers in 2010.

This quarter, we're pleased to announce the promotion of David Osborn to Chief Lending Officer. With 27 years of lending experience, David will oversee the bank's

lending activity, including managing all lending officers. A dedicated volunteer to civic and community groups, David currently serves with El Paso organizations including the Paso Del Norte Group, the El Paso Regional Economic Development Corporation, and the El Paso Children's Hospital. His past community service includes being former chairman for both the Greater El Paso Chamber of Commerce and the Paso Del Norte Health Foundation. We're fortunate to have David leading our efforts in retaining and expanding our client relationships in the community.

Rest assured, as we begin our 21st year of service to the community, the mission of Bank of the West continues to be providing extraordinary service and superior financial products to the borderplex region. We are truly privileged to provide a safe, solid and secure bank for our community and are honored so many businesses and families have chosen to trust their banking needs to us. On behalf of the Board of Directors, officers and employees at Bank of the West, we would like to say "thank you" for choosing Bank of the West.

Sincerely,

L. Frederick Francis

volume 21 • no. 3 • 3rd quarter, 2010

To Our Stockholders, Valued Clients and Friends:

Today, our role as an independent, community bank dedicated to serving the financial needs of the borderplex area is more vital than ever. As others in our industry falter, the sound ethical business practices that have guided us from the start remain our foundation. As our current balance sheet shows, our assets total over \$866 million. Simply put, Bank of the West continues with forward momentum and steady growth.

What our balance sheet doesn't show is our lasting commitment to our community. As a business that genuinely cares about our area, we're fully committed to supporting our community through volunteer service, sponsorships, and charitable fund-raising. This year, we're happy to report the 2010 United Way campaign at Bank of the West had an impressive employee participation rate of 90%, a 4% increase over last year. Additionally, we hit an all-time pledge high of \$36,412. We're proud to be able to support United Way and assist in creating a lasting change in our community.

Enhancing the quality of life for our area, as well as the customer experience, is central to everything we do. By continually evaluating our products and services, we strive to meet the evolving needs of our customers. That is why we created our newest personal checking product – MyChoice Checking. Soon to be unveiled, and completely designed with our customers in mind, this new account will offer a full array of benefits and services. Just a few of the features will include ID theft protection, shopping discounts, healthcare savings, and much more. It's just one more example of how Bank of the West endeavors to deliver the best products and services to you, our customers.

As El Paso's largest community bank, we recognize our responsibility to encourage and stimulate local economic growth. We take the role as corporate citizen and the responsibility it brings very seriously. In August, Bank of the West was named Top 7(a) Lender in the El Paso District by the El Paso SBA. During the period of July 1, 2009 through June 30, 2010, Bank of the West led area financial institutions with 56 SBA 7(a) loans totaling over \$16.4 million. At a time when questions are being raised about banks' willingness to make loans, these numbers demonstrate tangible proof of our commitment in

supporting El Paso's small businesses.

As always, we continue to nurture our deep connections to the community. Our ongoing involvement with the Sun Bowl Association demonstrates our dedication to the communities we serve. As such, we are proud to continue our title sponsorship of the Don Haskins Sun Bowl Invitational for a second year. Our sponsorship provides a good time for all, as well as the means for our university to participate in its own invitational. Scheduled for December 28th and 29th, the teams will include our own UTEP, Western New Mexico, Sam Houston State, and long-time rival Air Force. We'll begin gearing up for the event by again participating in the annual Thanksgiving and Holiday Lights parades with our specially-designed float and giant helium basketball. We hope you'll mark your calendars to come join us for the parades and great basketball this holiday season.

Bank of the West continues to weather the storm of the current economic climate. We are passionately optimistic about our region's future and are committed to the success of our customers. We would like to thank our Board of Directors, management team, employees and shareholders for their continued support that has been so crucial in allowing us to grow as we have. We truly value the faith you have in us and hope you will continue to tell your friends and family about Bank of the West.

Sincerely,

To Our Stockholders, Valued Clients and Friends

Our bank has much to be thankful for, as we reflect upon last year. Despite the current economic landscape, Bank of the West experienced record growth in deposits, loans and earnings this past year. We are truly pleased that our 2010 year end balance sheet remained strong with assets totaling over \$880 million. With growth across the board, we attribute our outstanding results to the continued adherence to our core values, prudent underwriting standards, and sound capital management.

For a financial institution, governance is an essential component for success. Competent leadership, by a well-chosen Board of Directors, supports a bank's values and mission as well as assists in ensuring its future growth. We are pleased to announce three new members to our Board of Directors: Richard Castro, owner and president of

Castro Enterprises; Woody Hunt, chairman and CEO of Hunt Companies; and Emma Schwartz, Executive Director of the Medical Center of the Americas Foundation. Widely respected, they each bring the business skills and competencies required for our ongoing success.

Another key element for success is to employ and promote people dedicated to the bank's goals of profitability, growth, and longevity. Promotions within our bank are in recognition of outstanding performance and dedication to Bank of the West and its customers. Recent promotions include: Jan Schauer to First Vice President, Loan Review; Luis Flores to First Vice President, Lending; Lee Rodriguez to First Vice President, Human Resources; Monica Donas to Vice President, Bookkeeping; Elsa Stoerner to Vice President, Lending; Blanca Varela to Vice President, Loan Review; and Laura Fernandez to Asst. Vice President, Bookkeeping. We are extremely fortunate to have such a strong team working for us. Each individual is an integral part of Bank of the West and an asset to our

continued growth.

In keeping with our philosophy to provide the best products and services, we recently rolled out a completely updated NetBanking featuring a fresh, new look and streamlined design. Redesigned with our customers in mind, the updated system provides convenient access to online Bill Pay and electronic statements as well as new tools and resources.

One of the most exciting elements of this new design is a personal financial management tool, MyMoney Center. Accessible via a tab in NetBanking, MyMoney Center allows you to easily manage all your finances online, all in one place. You can now have complete control of your finances across multiple savings, loan, investment, and credit card accounts enabling you to effortlessly track and analyze your budget, spending, and net worth on a regular basis. Additionally, you can categorize your spending into customizable categories, create budget goals, and set automated alerts notifying you of bill payments, large

credit card charges and low bank balances. This service upgrade and new finance tool are just the first of many successful endeavors in store for our customers this year.

As 2011 unfolds, we will continue to provide the stability you expect and the highest quality of service and banking products you deserve. On behalf of Bank of the West, we thank you for the trust and confidence you've placed in us. We consider it a privilege to be your bank of choice and look forward to continuing to serve you. Together, we can make this year even better and more prosperous than the last.

Sincerely,

L. Frederick Francis
Executive Chairman
